Invention Carousel

- Each person in the room is going to be given an idea designed by Leonardo Da Vinci.
- Not all of these were actually made, but they help to show how Leonardo viewed the world.
- You are going to be experts on your invention, it will be up to you to tell others about it.
- You need to write down at least 4 other inventions

Invention	Information

Create a advert for an invention

- Choose one of the inventions you have seen from around the room.
- You are going to design an advert to sell this new product during the Renaissance
- You must include a small picture and some information persuading people to buy your invention – remember to inform them of the purpose (these are new after all)

Task

- Research one piece of art that Leonardo created in his lifetime.

- Get a picture, some basic info and explain why you choose it
